

Target Lab

- Build a ramp or contraption that allows you to roll a ball off a table, and hit a target on the floor below.
- When you're ready, I will give you the target to place on the floor.
- The closer you are to the center of the target, the higher your grade!
- We have rulers, planks of wood, tape, books and stop watches. If you need other items, just ask.

RULES:

1. No practice runs! Use calculations only.
2. If the ball leaves the table before you tell me you are ready to be graded, you get an E.
3. The ball must run across the table for at least 30cm.
